Forecast For Wales
Issued by Met Office Exeter
at 1600 on Monday 20 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Largely dry and cloudy at first, turning unsettled from midweek.

This Evening and Tonight:
It will be a dry though mostly cloudy evening and it will remain dry overnight with clear spells developing. It will turn cold with a fairly widespread frost developing and one or two fog patches are possible where skies clear. Minimum temperature -2 deg C (28 deg F).

Tuesday:
After a cold start, Tuesday will be another dry day and despite a lot of cloud, some sunny intervals are likely in places. Breezy in the west and feeling chilly. Maximum temperature 7 deg C (45 deg F).

Outlook for Wednesday to Friday:
A dry start on Wednesday, but rain arriving from the west later. Rain at times to end the week with fog possible on Friday. Feeling milder but breezy at times.
